SERVICE-LEARNING CLUSTER

COORDINATOR

• PEGGY CAREY BEST (HTTP://WWW.WESLEYAN.EDU/ACADEMICS/FACULTY/PCBEST/PROFILE.HTML)

Service Learning (SL) integrates experiences outside the classroom with an academic curriculum taught within the classroom. As one form of experiential education, service learning seeks to broaden students’ understanding of course content through activities which are, at the same time, of service to the campus and/or surrounding community. Through structured reflection on their service, students are able to test and deepen their understanding of theoretical approaches in virtually any discipline.

The Allbritton Center (http://www.wesleyan.edu/allbritton) for the Study of Public Life provides support and resources for faculty interested in incorporating service learning into their courses. Service-Learning Initiative Grants (http://www.wesleyan.edu/slc/facultyresources/obligations_support.html) (SLIGs) provide faculty with funds to develop their new service-learning courses. Faculty who teach service-learning courses often work closely with the Jewett Center for Community Partnerships (http://www.wesleyan.edu/jccp).

COURSES & PROJECTS (HTTP://WWW.WESLEYAN.EDU/SLC/PROJECTS-COURSES.HTML)

GETTING INVOLVED

Wesleyan students have a long history of getting involved in the greater Middletown community. Much of this is done through volunteer and community service through the Jewett Center for Community Partnerships (http://www.wesleyan.edu/jccp). But some academic courses—service-learning courses—also have a service component to them. In the past, students enrolled in service-learning courses at Wesleyan have:

• Conducted the homeless count required by the United States Department of Housing and Urban Development for the Middlesex Supportive Housing Coalition;
• Examined the effect of local preschools on preparing kindergarteners to be school-ready, for the Middletown School Readiness Council;
• Studied the North End landfill to determine whether the methane it produced could be harvested economically;
• Taught 20th century music compositional techniques to Middletown High School students;
• Taught dance classes at the Green Street Arts Center;
• Aided medical research at the Community Health Clinic.

If you think Wesleyan students might be of help in a project your organization or agency is doing, planning, or just imagining, the first step is an informal discussion with the Director of the Allbritton Center.

FACULTY RESOURCES

Getting Started with Service Learning

When integrated into an academic course, community service provides a pedagogical tool that allows students to develop a deeper understanding of course material. The service can take many forms such as volunteer work, research for local organizations, teaching opportunities, policy-related work, community organizing activities, as well as other forms of service activities. Students may work directly with local community members through direct engagement activities or work on campus in the service of the members of the university community.

Faculty who want to explore developing a service-learning course should feel free to contact the Director for Service Learning, Peggy Carey Best (pcbest@wesleyan.edu), or the Director of the Allbritton Center to discuss their ideas. Information about service-learning courses, including syllabi, from almost all disciplines is available at the Jewett Center for Community Partnerships (http://www.wesleyan.edu/ccp) in Allbritton, 3rd floor. The Director for...
Service Learning and other Allbritton Center staff members can assist faculty members in identifying potential community partners.

Service-Learning Initiative Grants (http://cascadewww-staging.wesleyan.edu/slcl/facultyresources/obligations_support.html) (SLIGs) provide faculty with funds to support the development of a new service-learning course (transportation costs, materials, training, and stipend).

Transportation (http://www.wesleyan.edu/jccp/about/vaninfo.html) for students in service-learning courses to their community placements may be arranged through the Jewett Center for Community Partnerships.
